HOSPITALITY RIDER

TRAVEL	HOTEL	TRANSPORTATION
2 Round Trip Tickets	4–5 Star Accommodation	Airport Pickup & Drop

01 / TRAVEL & ACCOMMODATION

AIR TICKETS	2 Round Trip Tickets — Premium Economy or Economy, subject to agreed routing and availability.
AIRPORT TRANSPORTATION	Dedicated airport pickup and drop. Pickup from arrival airport to hotel and drop from hotel to airport for departure. Local event transport for the artist/team to be arranged by the promoter/host.
ACCOMMODATION	4–5 star hotel, with 1–2 rooms, preferably at or near the event venue. Accommodation should be clean, secure and suitable for artist hospitality.
BREAKFAST	Daily breakfast included with the hotel accommodation.

02 / MEALS & VENUE HOSPITALITY

MEALS	Breakfast, lunch and dinner to be covered by the promoter/host as required by the artist's schedule.
VENUE	Drinking water, soft drinks and basic beverages to be available at the event venue throughout the performance.
TIMING	Meal and transfer timings should be coordinated around the confirmed performance and travel schedule.

HOSPITALITY CONFIRMATION

All travel, accommodation, airport transfers and meal arrangements should be confirmed with artist management before the event. Any deviation should be discussed and agreed in advance.

METHODS Mayank Sinngh

TECHNICAL RIDER

ITEM	REQUIREMENT
DJ PLAYERS	2 × Pioneer DJ CDJ-3000 professional multi players.
DJ MIXER	1 × Pioneer DJM-A9, 4-channel professional DJ mixer.
BOOTH MONITORS	2 × powered booth monitors — one on each side of the DJ console. Both monitors must receive dedicated booth outputs from the mixer.
MICROPHONE	1 × Shure SM58 with ON/OFF switch, directly connected to the DJM-A9.
CABLING	All required networking/equipment connections to be made with CAT5/CAT6 cables where applicable.
POWER	Clean, stable power supply with proper grounding/earthing. All equipment must be tested before artist arrival.
CONSOLE POSITION	DJ console must be positioned at the center of the stage with clear access and unobstructed visibility.

PRODUCTION NOTES

- All equipmentmust be installed, powered and tested before artist arrival.
- No substitutions to the requested players or mixer without prior approval from artist management.
- DJ console should remain unobstructed and positioned centrally on the stage.
- Booth monitoring must be available to the artist during the entire performance.

PIONEER CDJ-3000 × 2 / PIONEER DJM-A9 × 1 / BOOTH MONITORS × 2

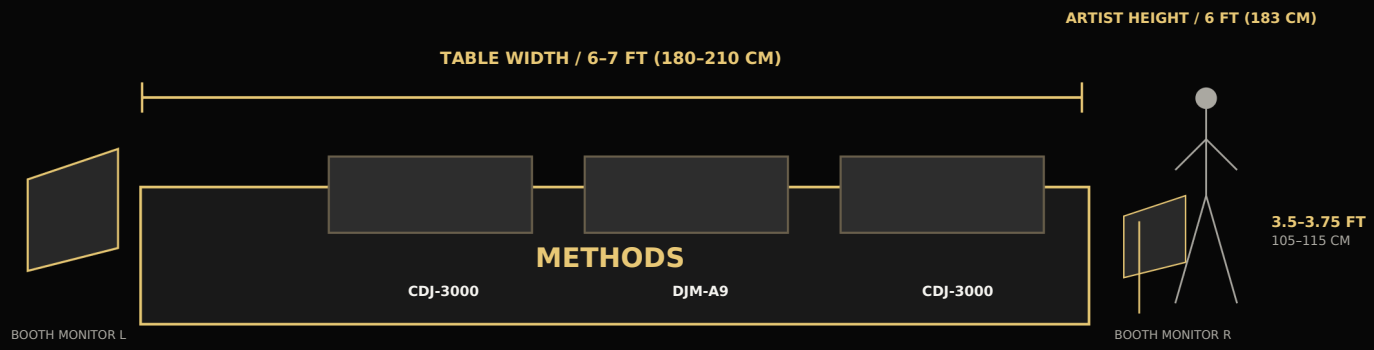
STAGE & DJ SETUP

STANDARD FRONT / SIDE VIEW



STAGE FRONT

DJ TABLE SPECIFICATION

TABLE WIDTH	6–7 ft / 180–210 cm — required working width for the complete setup.
TABLE HEIGHT	3.5–3.75 ft / 105–115 cm — recommended working height for a 6 ft / 183 cm tall artist.
TABLE DEPTH	2–3 ft / 60–90 cm minimum usable depth for the full DJ setup.
SURFACE	Rigid, level and stable, with sufficient load capacity for the full DJ setup and normal performance movement.

LAYOUT STANDARD

TheDJ console mustbecenteredon stage. The two booth monitors should be positioned symmetrically on either side of the console and angled toward the artist. Keep the working surface clear of unnecessary equipment and cabling.

METHODS Mayank Sinngh

LIGHTING & PERFORMANCE

WARM WHITE LIGHT	A warm white light must be projected clearly onto the artist and/or DJ console throughout the performance. The lighting should be consistent, non-flickering and bright enough to keep the artist clearly visible. Avoid harsh colored light directly on the artist.

SOUND CHECK

The artist/management must be provided a dedicated sound-check slot during non-operational hours together with the venue audio engineer. At least one qualified technician should be available during sound check and the main performance. The venue should maintain a contingency plan for last-minute equipment failure.

PRE-PERFORMANCE CHECKLIST

✓ All DJ equipment assembled, powered and tested before artist arrival.	✓ 2 × CDJ-3000 + 1 × DJM-A9 confirmed and fully operational.
✓ 2 × booth monitors placed symmetrically on either side of the console.	✓ DJ table is stable, level, 6–7 ft wide and approximately 3.5–3.75 ft high.
✓ Warm white performance light focused on the artist / DJ console.	✓ Dedicated sound check completed with venue audio engineer.
✓ Airport pickup/drop and hotel arrangements confirmed in advance.	✓ 4–5 star accommodation with breakfast confirmed.

FINAL NOTE

Any deviation from this rider should be discussed and agreed with artist management in advance.
